## KS1 Multiskills event Penryn College.

Year 2 had a great day at this event. They all took part in the wide variety of activities that were on offer and they got on so well. Penryn College staff and students were delighted to host this event and we are so proud of Lowen for being spotted as some one who showed great teamwork and determination. It was lovely to see some friendly faces as some of our ex pupils lead the activities too. Well done Y2!!

### Ex pupil visits

Mr Wild and Mrs G had a lovely surprise last week when an ex pupil, visited all the way from New Zealand! Emily was back to visit her family and friends and she wanted to ay the school a visit. She said it looked so different as Emily attended prior to our re build . You may remember Emily's sister Rosie and parents. He dad John was our chair of governors for many years and her mum Bev was a practice nurse in our local surgeries.

Whole school attendance to date:

Expectation:

96.5%

## Knots

Year 5 have been learning to tie knots which is linked to their topic about Ernest Shackleton. Some of the children have taken off with this and they

are learning what knots are good for different purposes and using them in their everyday lives too. Checkout Archie's Monkey Fist knot that he used to make a

rope swing with!

## Year 5 Visit EDEN

We had a great day on Wednesday at the Eden project learning all about how we can reduce our carbon footprints and help slow global warming and climate change. We had a great day and we are already thinking about how we can make changes to help Eden make their target or having a zero footprint by 2030! The UK have a target of 2050...I'm sure we can do our bit to help save our planet
